

# Size/Fit Reference —New Aeron® Chair

This reference helps people select A-, B-, or C-size chairs when the three sizes are not available for actual test sitting. Height and weight are key indicators of suitable chair-size choice. Since the B-size chair is designed to fit a broad range of people, Herman Miller recommends it for users who fall in the A/B or B/C category. This chart applies to New Aeron chairs with the extended-height-range pneumatic height-adjustment cylinder.

To determine which chair size is best, find the point of intersection for your height and weight. New Aeron B-, and C-size chairs are tested and warranted for use by person 159 kilograms and under. A-size chairs are tested and warranted for use by persons 136 kilograms and under.

A

### SMALL CHAIR SIZE

Recommendation  
Height: 1.47m-1.75m  
Weight: 40kg-68kg

B

### MEDIUM CHAIR SIZE

Recommendation  
Height: 1.58m-1.98m  
Weight: 59kg-148kg

C

### LARGE CHAIR SIZE

Recommendation  
Height: 1.60m-1.98m  
Weight: 81.5kg-159kg
